ULTIMATE REWARD LEVELS

50,000	Level 1	200%
10,000	Level 2	150%

Members move through the Ultimate Reward Levels based on their **Point Accrual** during each month.

This point accrual balance can be checked at any gaming machine. Other points earned in promotions or bonuses, while added to your membership card, do not contribute to your Point Accrual.

At the conclusion of each month, the level you achieved will define a '**Point Multiplier**' amount.

On the first day of the new month all '**Point Multiplier**' Bonus Points will be deposited into the members account.

For example;

A member earns 4,000 points from spend during the month, this member will receive a 'Point Multiplier' Bonus Point amount of 4,000 on their membership card the following month.
